Night People

Jorn Lande

Do you like the dark Do you like the way it moves Do you come alive when neon Kills the sun

Are you hypnotized Part of the illusion Oh, see how they run

It's the mystery Poetry and passion Innocence and fashion Revolution Evolution ways

Night people

Are you satisfied With the lessons that you're learning Is the fire really burning Do you know

Hey dream child Promises are spoken And promises are broken Electric eyes that never let you See them in the day

Night people Night people

Do you like the dark Do you like the way it moves Do you come alive when neon Kills the sunshine

Are you hypnotized Innocence and fashion Promises and passion Evolution Revolution ways And everybody stays

Night people, yeah!

Do you like the dark Do you like the way it moves Are you hypnotized Paralyzed Revolution Hey dream child You got electric eyes Hey dream child!
