

## Glow In The Dark

Jorn

I've been loosing many battles  
I've been confused - too many days on the run  
But I've seen the sunrise on a coloured blue sky  
And hopes and dreams has always glowed in the dark

I've been blinded by directions  
I've never known just wich way to go  
But my intuition always one decision  
On the road I have been  
A stranger at the scene  
And my love forever glowing in the dark

Casting shadows  
From birth to the dying  
We're lost in the shade  
Everything's made  
It's been so hard to carry on

Take my hand and we'll walk the waters  
Of the world - like soul mates in the sun  
Holding the fire - burning desire  
Come and let the feeling show  
Make our love forever grow  
And the spirit glow in the dark

Casting shadows  
From birth to dying
