

## Rev On

Jorn

We play for the broken ones  
I sing for the lonely  
When life brings you sorrow and cold  
You're not gonna be the only... no

The song is our hideaway  
where dreams can stay

Push your body of flesh and bone  
Working the spirit home  
traveling on your own  
Make your way in this danger zone  
Live for today  
cause tomorrow may never come  
Rev on ooh rev on  
Down the long black road

So don't you wait till it's all too late  
You have to speed up your engine  
If you delay and take the easy way  
There'll be no peace at the ending... no

The price that we have to pay for yesterday

Black heart carry your heavy load  
We're striving under the sun  
sharing the darkest run  
Running with shadows until we're done  
Together we fight till the end of the light  
Rev on come on rev it along  
we're heading on home  
We're going home

Ooh The power of rock and roll will take control... yeah  
The music will shine like gold  
It's in my soul

I'm not that far away from you  
Together we stand every woman and man  
Worlds apart but we'll make it through  
Like partners in crime rocking out of our time  
Rev on come on rev on  
It's a big black road  
Got to rev on  
Come on rev it along we're heading on home
