

Bird Of Space

José James

shadows on my face
shadows on the wall

Lord I need a taste
oh I'd risk it all

you belong to me
we belong + know

oh I go crazy
when I can't find my love

you + me only child
when I'm happy you make me smile

oh but when I'm free to dream
+ to know what it means to die

just a bird of space
give the words to fly

see the silence of the moment
all alone inside

you belong to me
we belong + know

oh I go crazy
when I can't find my love

windows on a plane
windows of desire

waited just a moment longer
waited all my life

you I can't believe
you I need to lie

oh when I'm alone I struggle baby
with a burning fire

you + me we can't look back
we got problems + that's a fact

how to keep loving you
when the love is gone away forever
longing for your face

windows on a train
windows of desire

window on a precious moment
buried deep within my mind

did you plant a seed
did you run + hide

did you know that I was lonely
will you touch me all my life

did you dream of loving me
+ did you think that our love would be

I woke up alone baby
I woke up alone
