

A Better Word

Josef Salvat

Love me
'Cause that is all I really need
When all the rest of it is blown away
To not be ending it alone
So I'm begging with you love me
'Cause I am down on bended knee
And fear is dripping over me
'Cause I don't want to see this end
I only wanna give you love

I'm over with a single glance
These heady nights, this heady trance
I'm looking for a better word
There must be one I didn't learn
At once too much but not enough
Perhaps you'll need to lie a little

Just love me
'Cause that is all I really need
When all the rest of it is blown away
To not be ending it alone
So I'm begging with you love me
'Cause I am down on bended knee
And fear is dripping over me
'Cause I don't want to see this end
I only wanna give you love

I wish there was a better word
Than this
Love, love me
Love, love me

Love me
'Cause that is all I really need
When all the rest of it is blown away
To not be ending it alone
So I'm begging with you love me
'Cause I am down on bended knee
And fear is dripping over me
'Cause I don't want to see this end
I only wanna give you love
I only wanna give you love
I only wanna give you love
I only want to give you love
