

## Call

Joseph Arthur

Pick up your phone  
I know you're home  
I've been your friend  
And I need you now

Last time we spoke  
It was all good  
With the passin' of time  
Things get misunderstood

Put down your walls  
Put down your walls  
And call

Sometimes friends rust  
When they forget how to trust  
We hurt the most  
The ones we truly love

I've been your friend  
And I need you now  
Just like you needed me then  
And I came through somehow

Put down your walls  
Put down your walls  
And call

Call

Pick up your phone  
I know you're home  
I've been your friend  
And I need you now
