Woman

You make me feel

Woman

Woman

Are you for real?

Cause I don't know if I make it on without you

I don't know if I could make it on my own back

home

Mother

Mother

Are you right here?

Mother

Mother

I share your fear

Cause I don't know if I make it on without you

I don't know if I could make it on my own back

home

Sister

You're here I see

Sister

Sister

You see through me

Cause I don't know if I make it on without you

I don't know if I could make it on my own back home
