

# My Queen

Joseph Vincent

Take a look around and you'll see  
That in front of me, this'll be  
Another thought out melody  
Take another chance with me

It's alright to try somethin' new  
For a minute, one livin'  
For more than what she needs  
For more than just a dream

Wait as long as I can try  
Until that perfect time

Since that day I saw you walk away  
Not a moment has passed  
That I haven't asked myself, oh why  
Takin' all my time, and it hasn't left my mind  
'Cause that was the thing, thought I was your king  
Hopin' that you would be my queen

Don't stop keep on movin'  
And just know that in time it will pay off  
And you will just make it on out, make it alright  
And you know, there's so much left to go  
So don't hold yourself back  
Keep your mind on track  
And you'll be on your way

Since that day I saw you walk away  
Not a moment has passed  
That I haven't asked myself, oh why  
Takin' all my time, and it hasn't left my mind  
'Cause that was the thing, thought I was your king  
Hopin' that you would be my queen

Be my everything, my whole life  
But then you slipped away  
One things for sure  
I gotta let you go

Since that day I saw you walk away  
Not a moment has passed  
That I haven't asked myself, oh why  
Takin' all my time, and it hasn't left my mind  
'Cause that was the thing, thought I was your king  
Hopin' that you would be my queen
