

Good Night For Dancing

Josh Abbott Band

Verse 1

There's a place I like to go
where the fast songs meet the slow.
And people come from miles around
just to hear an old guitar sound
Call your friends and I'll call mine.
We'll have ourselves a country time.
Get there early and have a few drinks,
loosen up step out on the dance floor
now what do you think?

Chorus

Yeah, it's a good night for dancing.
It's a good night for you
(repeat)

Verse 2

A nice two-step might start out the night.
Pretty soon we're half-stepping and the rhythm's right.
A line dance and the cotton eye joe,
I spin you around and here we go.

Verse 3

Well it's last call and the lights begin to come on
and they announce that it's the very last song.
I grab your hand and lead you on the floor,
Hold you in my arms and dance til we can't anymore.
