

I Just Wanna Love You

Josh Abbott Band

Verse 1

Well lately it's occurred to me we let life get busy.
We go to work and we pay our taxes on time.
Well that kind of living will not do, keeping me away from you.
I just wanna love you tonight.

Chorus

I just wanna love you, I just wanna love you,
I just wanna love you tonight.
Get lost in love with you for hours, make love in a bed of flowers.
I just wanna love you tonight.

Verse 2

Well this ol' world has got you down, stress is giving you a fright.
Seems like there ain't no end in sight.
Well come on home, it's time to unwind, pour a glass of sweet red wine.
I just wanna love you tonight.
