

I Don't Want To Live

Josh Gracin

I know you said when I left, I'd regret every word
Every breathe, every step, every minute without you, go do what
you have to
I know I said you were wrong I'd move on
It was only a matter of time till I'd make it without you but th
is wasn't about you
I said I needed space, a change of place to go out and live my
life

I don't wanna live without you anymore
And what I wouldn't give to get us back to the way it was befor
e
I admit I was wrong all along, now you're gone with all that I'd
been living for
I don't wanna live without you anymore

For a couple of nights I was fine, I was high off the wine and
the lights
And my new found freedom that I thought I needed
But that cold lonely room that I headed home to, it felt like a
tomb
I just stared at the ceiling, what an empty feeling and, baby,
I apologize
And tell me it's not too late

I don't wanna live without you anymore
And what I wouldn't give to get us back to the way it was befor
e
I admit I was wrong all along, now you're gone with all that I'd
been living for
I don't wanna live without you anymore

I don't wanna live without you anymore
And what I wouldn't give to get us back to the way it was befor
e
I admit I was wrong all along, now you're gone with all that I'd
been living for
I don't wanna live without you anymore
No, I don't wanna live without you anymore
