

# Over Me

Josh Gracin

I, I knew this day would come  
When I'd be the one that you would walk on by  
What I, what I didn't know  
That it still hurts this bad since I let you go

Plain to see you're happy now  
Good to know you made it through  
Now if only I could get that way with you

And I, I never thought I'd die a little at a time  
Never thought it'd be this hard to see you on the street  
Seeing you walk by  
God you still have that smile  
Ohhh could it be  
That I'm still trying, and you're finally over me

So I lie, I lie to myself  
That you still think of me once in a while  
Just, Just so I can make it through  
If you saw my face it couldn't hide the truth  
I've tried everything, I'm still dealing with the pain  
Is there nothing left in you for me at all

And I, I never thought I'd die a little at a time  
Never thought it'd be this hard to see you on the street  
Seeing you walk by  
God you still have that smile  
Ohhh could it be  
That I'm still trying, and you're finally over me

And I, I never thought I'd die a little at a time  
Till I saw you on the street  
And seeing you walk by  
God you still have that smile  
Ohhh could it be  
That I'm still trying, and you're finally over me
