

# Below the Line

Josh Groban

Big world  
Please do not swallow us up  
Please do not blind our eyes with  
Ocean blue

A young girl  
She's got time left to grow up  
See the light of hope in her eyes  
She gives to you

And now I know  
Just what we're fighting for  
How long to go  
Until we ask for more

All we might find ourselves  
Living below the line  
Still living below the line

One world  
Strong as the beating of drums  
Loud as the voice inside  
Is more than enough

Fire  
Under the burning red sun  
Wake up the heartless sky  
And show some love

And now I know  
Just what we're fighting for  
How long to go  
Until we ask for more

And we all might find ourselves living  
Below the line  
Still living below the line

When I start to feel the night begin to fall  
And in the silence hear the heart of it all  
Sometimes it's hard to find a way to  
Rise above  
But then we find our strength in love

Just what we're fighting for  
How long to go  
Before we ask for more

And we all might find ourselves  
Living below the line  
We're all living below the line  
We're living below the line  
We're living below the line
