

# Must Be You

Josh Joplin Group

I think therefore, I think I am  
I can't make my mind up and I can't make you understand  
How I get distracted, how I search for things to say  
How I let myself get myself into my way  
I love to hear you talk, it's funny but it's true  
CHORUS: What gets into me must be you  
What gets into me must be you

I'm always late but it's really not my fault  
Time just hates me, that's why it made me an adult  
If wisdom comes with age then I haven't got a clue

CHORUS

BRIDGE: Turn off your clock sleep in today  
There isn't a job that can not wait  
I can not wait to be home with you

I might be walking and I might just laugh out loud  
at something you said in the middle of a crowd  
Well let the people stare I can't tell them what to do

CHORUS
