

# Baby Blue Eyes

Josh Kelley

She poses for the camera, she's my little Cover Girl  
If you tell her she's a pretty bird, she flies around the world  
Still gets nervous when I kiss her but that don't mean she's shy  
Man you ought to see her when she gets that look in

Her baby blue eyes, her baby blue eyes  
Oh, I love the man she makes me  
Everyday that woman save me with  
Her baby blue eyes, her baby blue eyes  
There's somethin' 'bout, there's somethin' 'bout  
There's somethin' 'bout her baby blue eyes

The first time that I met her, I couldn't say a word  
She knew what I was thinking and I'm not sure how it worked  
'Cause I know I don't deserve her, I would never break her heart  
I know it when she had me and she had me from the start with

Her baby blue eyes, her baby blue eyes  
When she wants me, she can have me  
Yeah, she owns me when she asks me with  
Her baby blue eyes, her baby blue eyes  
There's somethin' 'bout, there's somethin' 'bout  
There's somethin' 'bout her baby blue eyes

I used to think love was just a word  
I never thought time would heal the hurt  
And then you waltzed right in my life  
An angel in disguise with baby blue eyes

Her baby blue eyes, her baby blue eyes  
Oh, I love the man she makes me  
Everyday that woman save me with  
Her baby blue eyes, her baby blue eyes  
There's somethin' 'bout, there's somethin' 'bout  
There's somethin' 'bout her baby blue eyes

There's somethin' 'bout, there's somethin' 'bout  
There's somethin' 'bout her baby blue eyes
