

Follow You

Josh Kelley

Everybody tells me I am wrong
When I know I'm not
Something in me moves me to be strong
Cuz its all I got
But I don't know what to say
When you ask me everyday
My mind won't let me play
The thought of you
The thought of you

So tell me what you need
I'm getting stronger
If you will help me see
It won't be long now
Its time for you to leave and I will
Follow you follow you

Now its you that tells me I am wrong
When I know I'm not
Who bets you don't listen to this song
Its all I got
And I don't know what to say
When you ask me everyday
My mind won't let me play
The thought of you
The thought of you

So tell me what you need
I'm getting stronger
If you will help me see
It won't be long now
Its time for you to leave and I will
Follow you follow you

Well isn't it great
How your restless on my mind
Singing songs of broken lives
To clear you in our minds
Well baby its great how someone let me find
To live around my life
Your picture in my mind
Your picture in my mind

So tell me what you need
I'm getting stronger
If you will help me see
It won't be long now
Its time for you to leave and I will
Follow you follow you
Follow you follow you
