

# Naleigh Moon

Josh Kelley

I know the kind of guy I am  
A bit too much and to myself  
Not much left for someone else  
And I'm sure I cause my share of pain  
But all that changed  
When you first touched my face

Halfway around my little world  
You had no idea that you were my girl  
You found my arms not a moment too soon  
I couldn't see past me till I saw you  
My sweet Naleigh Moon

I love the man you're makin' me  
Yeah, everyday, I wanna prove  
There's nothin' I won't do for you  
Just to see you in your mama's arms  
Is more than enough  
To bring me to my knees

Halfway around my little world  
You had no idea that you were my girl  
You found my arms not a moment too soon  
I couldn't see past me till I saw you  
My sweet Naleigh Moon

I can't imagine life without my  
Naleigh Moon

Halfway around my little world  
You had no idea that you were my girl  
You found my arms not a moment too soon  
I couldn't see past me till I saw you  
I couldn't see past me till I saw you
