

Perfect 10

Josh Kelley

Hey Perfect ten
Did you stop to check him out
Hey perfect ten did you leave him any doubt
You know you're on your way
You can feel it in your bones
You know there'll be a day
This will make you feel alone

So don't forget the days we wrestled on the phone
Don't forget the way you liked to sing along
Don't forget the way you make me feel at home
At home when I'm alone
Hey perfect ten
Did you find your lovely place
Hey perfect ten
Did they make your lovely face
Reflection hurts your soul
You can feel it in your bones
You know there'll be a day
This will make you feel alone

Who hides the key when you're with me
Who spends the days when you're not free

When I'm feeling gone
When I need you most
You make me feel at home
