

# Tidal Wave

Josh Kelley

Just stormed into my life, like a hurricane coming  
Spinning around like a devil, from horns to toes  
I was so damn comfortable 'til you jumped into my ocean  
I may not understand you, but I'm learnin' as I go

I'm just around the corner, child  
Everything's changed  
I didn't see you comin', but I, I love you anyway  
I wanna give you somethin' to take, to take away the pain  
I'm just ripples in your ocean, you're my tidal wave

I've given up on yesterdays, and a lone situation  
Pushin' down on the pedal, I'm gonna catch your storm  
Oh, you're so irresistable with your big imagination  
Tie me up, mess around, with me in your arms

I'm just around the corner, child  
Everything's changed  
I didn't see you comin', but I, I love you anyway  
I wanna give you somethin' to take, to take away the pain  
I'm just ripples in your ocean, you're my tidal wave

'Cause I want you,  
Oh, I gotta have you  
It's kinda crazy what you do to me  
Oh, I just can't seem to get enough

I'm just around the corner, child  
Everything's changed  
I didn't see you comin', but I, I love you anyway  
I wanna give you somethin' to take, to take away the pain

I'm just ripples in your ocean, you're my tidal wave  
I'm just ripples in your ocean, you're my tidal wave  
Oh, I'm just swimmin' in your ocean, you're my tidal wave
