

## El Otro Lado

Josh Rouse

You called me up this evening  
Cause you wanted to know what's going on  
You give me ultimatum  
Cause you don't want to feel you are wrong

And I tell you that some folks don't evolve  
They're content with what they've got  
They just sit back and they watch TV

You talked about September  
Fought about your tastes, they were all mine  
What did you know anyhow  
When you said I'm lost but there's still time

And I tell you that some folks don't evolve  
They're content with what they've got  
They just sit back and they watch TV

Yeah I tell you that some folks don't evolve  
They're content with what they've got  
They just sit back and they watch TV  
Yeah but that's not me

But one day you'll come around to see the other side of things  
One day you'll come around to see the other side of things  
Yes you will  
You'll come around to see the other side of things  
You'll come around to see the other side of things
