

Broken

Josh Todd

Love dead! Love dead! Love dead! Love dead!
Pills in your mouth my love dead
It's a shame everything got broken
Tours on the couch my love dead

It's a shame everything got broken
I'm in a fog, I'm in the silence of the empty
There's nothing wrong, I just get quiet when I'm thinking
Open up yourself open says me stuck inside your shell till you
can't breathe

Pills in your mouth my love dead
It's a shame everything got broken
Tours on the couch my love dead
It's a shame everything got broken

I'll come alone, so you can do your best to tempt me
It's getting cold, lets get inside before we both freeze
Open up yourself open says me stuck inside your shell till you
can't breathe
Pills in your mouth my love dead

It's a shame everything got broken
Tours on the couch my love dead
It's a shame everything got broken

Love dead! Love dead! Love dead! Love dead!
Love dead! Love dead! Love dead! Love dead!
Open up yourself open says me stuck inside your shell till you
can't breathe
Pills in your mouth my love dead

It's a shame everything got broken
Tours on the couch my love dead
It's a shame everything got broken
