

Shine

Josh Todd

In your eyes I that somethings wrong
In your mind you think I've gone too far
And you try to think of all the reasons
Now you sit and watch the power die
Shine, he loves and look what's happened
Shine, he'll turn the water back on
Be back home again
Be back home again
Be back home again

It's alright cause were doing it all night long
It takes time just stay inside my arms
And you try to think of all the reasons
Now you stand with water in your eyes

Shine, he loves and look what's happened
Shine, he'll turn the water back on
Be back home again
Be back home again
Be back home again
Be back home... again

In the back of my mind I put you together
God shined your light as a phantom
You'd say there's nothing better
We've got so much time
Oh now we've cut through the matter
Make it back and watch the sun go
You'd say there's nothing better
We've got so much time

Shine
Shine
Shine
Shine
Shine

Shine, he loves and look what's happened
Shine, he'll turn the water back on
Be back home again
Be back home again
Be back home again
Be back home again
Be back home again
Be back home again
Be back home again
Be back home again
