

# All Over Me

Josh Turner

Well the weather man says, "It's gonna be a hot one."  
Heard it on the radio  
Load up the boat, get your girl if you've got one  
A nice little breeze gonna blow

Baby, I'm on my way to come and get 'cha  
Meet me at the end of your drive  
Grab your shades and your string bikini  
And your Coppertone forty five

Bring on the sunshine, bring on a good time  
Girl, let me look at you  
Jump in the front seat, kick up your bare feet  
Honey, let your hair down too  
I know a spot down on the river  
Underneath the sycamore tree  
Save all your kisses up, bring on your sweet love  
Pour it all over me  
All over me

We can build us a fire when we run out of daylight  
Let it light up your face  
Lay on a blanket, listen to the river  
Get a little carried away

Well, I can taste that kiss on your sweet lips  
Ain't gonna want it to end  
So when the morning comes, we'll roll on out  
And do it all over again

Bring on the sunshine, bring on a good time  
Girl, let me look at you  
Jump in the front seat, kick up your bare feet  
Honey, let your hair down too  
I know a spot down on the river  
Underneath the sycamore tree  
Save all your kisses up, bring on your sweet love  
Pour it all over me  
All over me

Bring on the sunshine, bring on a good time  
Girl, let me look at you  
Jump in the front seat, kick up your bare feet  
Honey, let your hair down too  
I know a spot down on the river  
Underneath the sycamore tree  
Save all your kisses up, bring on your sweet love  
Pour it all over me  
All over me

C'mon,  
C'mon,  
C'mon,  
C'mon pour it all over me,  
All over me
