

# One Like Mine

Josh Turner

That second that I met her  
It was like I found a treasure  
And I swore I'd never let her get away

She's what you call a keeper  
And she's made me a believer  
The girls like that don't come around every day

When you find one like mine  
No, you don't take for granted  
That angel you've been handed  
When she loves the way she loves  
And you're looking in those eyes  
You'll know it when you find  
One like mine

When you find your one and only  
And she lays her body on you  
You're kissing all that loneliness goodbye

After all those nights of looking  
I stumbled on a good one  
And the only question I had in my mind  
Was where have you been all my life

When you find one like mine  
No, you don't take for granted  
That angel you've been handed  
When she loves the way she loves  
And you're looking in those eyes  
You'll know it when you find  
One like mine

You're gonna hit your knees  
You're gonna thank the Lord  
You're gonna know you found  
The one you're looking for

When she loves the way she loves  
And you're looking in those eyes  
You'll know it when you find  
You'll know it when you find

When you find one like mine  
No, you don't take for granted  
That angel you've been handed  
When she loves the way she loves  
And you're looking in those eyes  
You'll know it when you find  
You'll know it when you find  
One like mine

Oh, one like mine  
One like mine
