The Saints

Josh Wilson

To those whose steps aren't steady To those whose hearts are heavy To those whose faith is all but gone To those that struggle on, struggle on

Oh, come and lay your burdens down Come and lift your empty hands You are not alone, we are not alone So hold on

To all the saints that keep on praying And all the children that keep on waiting And all those that sing the Savior's song

Lift your heads up and keep on living Hold tight to the hope we are given For we know that we won't be waiting long I know we won't be waiting long

Can you hear the music playing? Can you feel the dream is waking? We are running towards redemption, yeah We are never standing still

Through the problems and the pain Through the striving and the strain You are not alone, we are not alone So hold on

To all the saints that keep on praying And all the children that keep on waiting And all those that sing the Savior's song

Lift your heads up and keep on living Hold tight to the hope we are given For we know that we won't be waiting long I know we won't be waiting long

He is coming soon, He is coming soon He will take His bride, He will make her new He is coming soon, He is coming soon To carry us home

He is coming soon, He is coming soon He will take His bride, He will make her new He is coming soon, He is coming soon To carry us home

He is coming soon, He is coming soon He will take His bride, He will make her new He is coming soon, He is coming soon To carry us home

To all the saints that keep on praying And all the children that keep on waiting And all those that sing the Savior's song, c'mon Lift your heads up and keep on living Hold tight to the hope we are given For we know that we won't be waiting long I know we won't be waiting

To all the saints that keep on praying And all the children that keep on waiting And all those that sing the Savior's song Hold on, hold on

Lift your heads up and keep on living Hold tight to the hope we are given For we know that we won't be waiting long I know we won't be waiting long So just hold on

'Cause He is coming soon, He is coming soon He will take His bride, He will make her new He is coming soon, He is coming soon To carry us home

He is coming soon, He is coming soon He will take His bride, He will make her new He is coming soon, He is coming soon To carry us home

He is coming soon, He is coming soon He will take His bride, He will make her new He is coming soon, He is coming soon To carry us home

Hold on He will carry us Hold on He will carry us home Hold on He will carry us Hold on He will carry us home

Hold on He will carry us Hold on He will carry us home Hold on He will carry us Hold on He will carry us home

Hold on He will carry us Hold on He will carry us home Hold on He will carry us Hold on He will carry us home

Hold on He will carry us Hold on He will carry us home Hold on He will carry us Hold on He will carry us home
