

# Back in Style

Joss Stone

I remember when we first started  
I was all messed up from  
The relationship I just parted  
I really thought that I used to be  
I used to be a strong lady  
Somehow my love is fading  
Some kind of love low

Trapped in a loveless song  
Until you came along

You brought me back in style  
You helped my light to shine again  
You lift me up so high  
You brought me back in style again

Mamma said: baby, don't settle  
Your man's gotta know you're an angel  
Every day you should feel special  
Let no one take that away from you  
I said: mamma, you're crazy  
See I'm in love with my baby  
My head was hard, I see that now

Addicted to feeling wrong  
Until you came along

You brought me back in style  
You helped my light to shine again  
You lift me up so high  
You brought me back in style again

I got a brand new groove  
I got a brand new tune to sing for you  
I got a brand new muse  
If you open up I'll let you through

Oh yeah  
You brought me back in style  
You helped my light to shine again  
You lift me up so high  
You brought me back in style again

Now I'm back, I'm back in style  
You helped my light to shine again  
You lift me up so high  
You brought me back in style again  
Now I'm back, I'm back

Brand new groove  
Brand new shoes  
Brand new muse  
Spread the news  
'Cause I'm back in style again  
See I'm back  
Back in style again
