

# Boat Yard

Joss Stone

I never see the clouds fall on you  
Baby tell me how  
Is it what you do  
When the sun shines through the rainbow  
I know the truth  
Baby all my life I'll wait for you

At the boat yard we've been waiting  
To the coast guard we've been waving  
Hoping that the rumors are true  
I hope you'll come through  
And I'll never lose you

I never see the clouds fall on you  
Baby tell me how  
Is it what you do  
When the sun shines through the rainbow  
I know the truth  
Know that all my life I'll wait for you

Sharp winds are cold and scathing  
No matter how long I save it  
Knowing, trusting and praying  
I know you'll come through  
And I'll never lose you

I never see the clouds fall on you  
Baby tell me how  
Is it what you do  
When the sun shines through the rainbow  
I know it's true  
Baby all my life I'll wait for you

Will you come through  
Will you be true  
God I miss you  
I see your face  
In this empty space  
I'm never leaving  
Never leaving this place

I never see the clouds fall on you  
So baby tell me how  
Is it what you do  
When the sun shines through the rainbow  
I know the truth  
And baby all my life  
I will wait for you  
I will wait for you

I never see the clouds fall  
Fall on you baby  
Now baby would you tell me how  
Would you tell me how  
Said I, see I never see the clouds fall on you  
They never fall on you  
They never fall on you

They never fall on you  
Baby is it what you do

Never see the clouds fall on you
