In the Morning Day

Everybody's got the blues In the morning day, yeah If you find the answer And you wonder let's find a way

I want to give you happiness Just like the sun gives to the day I'd like to make you mine, yeah I'm gonna make you mine

Just like a blinding dream Yeah, you're gonna be with me, yeah

Strolling through a summer's breeze And you find it's not the rain Leaving wrong behind you All your fantasies so very plain

I want to give you happiness Just like the sun gives to the day I'd like to make you mine, yeah I'm gonna make you mine

Just like a blinding dream Yeah, you're gonna be with me, yeah
