

## It's Just the Rain

Journey

Once in your life you love  
Once in your life you try  
The one you're holding  
Is the one that tears you apart

Deep in her arms you lie  
Deep in the night her eyes tell your secrets  
To the ones you try to deny

Touch me  
Touch me crazy  
How your kiss betrays me  
It's not the love  
It's just the rain  
Two broken hearts but not in vain  
It's not the love  
It's just the rain

Inside you keep on lying  
Inside your soul is dying  
You still can't hold back  
Still you can't say goodbye

Touch me  
Touch me crazy  
How your kiss betrays me  
It's not the love  
It's just the rain  
Two broken hearts but not in vain  
No reasons why  
No one's to blame  
It's not the love  
It's just the rain

It's just the rain  
It's just the rain  
Falling, falling, falling, falling  
It's just the rain
