

# Just the Same Way

## Journey

Yesterday was a good day  
It's after midnight and I got you on my mind  
Come with me, never go away  
Every day we will fly, yeah

That's the same way you love me  
(That's the same way she loves you)  
Ooooh, just the same way you do  
(Just the same way you do)  
Just the same way you love me  
(Just the same way she)  
Loves

Take a chance, now the timing's right  
You bring to me the key to my life  
Stay with me, won't you stay the night  
In the morning, feelin' fine, yeah

That's the same way you love me  
(That's the same way she loves you)  
Ooooh, just the same way you do  
(Just the same way you do)  
Just the same way you love me  
(Just the same way she)  
Loves

(Whoa, no)  
You should be holding on to him, girl  
(Whoa, yeah)  
Just like, just like you want to do, yeah  
(Whoa, no)  
Just love and squeeze him, girl  
(Whoa, yeah)  
Just love and squeeze him, yeah

That's the same way you love me  
(That's the same way she loves you)  
Ooooh, just the same way you do  
(Just the same way you do)  
Just the same way you love me  
(Just the same way she loves you)  
Ooooh, just the same way you do  
(Just the same way you do)  
Just the same way you love me  
(Just the same way she)  
Loves
