Knowing That You Love Me

Journey

I still see the look in your eyes
The night you walked into my life
And how we danced, the way that we touched
Let me know you'd be mine
And how your love has set me free
An angel watching over me

You lift me up if I should fall
Showing me love when I was blind to it all
I face the fire and I stand tall
Knowing that you love me

Shared my dreams, gave me wings to soar
My guiding light in a raging storm
I found the strength to carry on
Knowing that you love me

If I could I'd go back in time
To be there the day you were born
To hold you close or to see you smile
And rock you away in my arms
To stand beside you through the tears
Letting go of all the fears

You lift me up if I should fall
Showing me love when I was blind to it all
I face the fire and I stand tall
Knowing that you love me, oh

Who said where to care and said where to share
All the little things, you bring joy to my life
Who scares me, we're so close, but in my heart it's good to know
I can imagine me anywhere without you

You lift me up if I should fall
Showing me love when I was blind to it all
Ooh, I face the fire and I stand tall
Knowing that you love me, oh

You shared my dreams, gave me wings to soar
My guiding light in a raging storm
Ooh, I found the strength to carry on
Knowing that you love me, yes
That's all I'll ever need
Is knowing that you love me
