

1. When I'm alone I keep replaying the look of love in your eyes.
When I miss home I swear I die every time we said goodbye.
Like a gentle wind you cross my mind.
I lose myself I lose all sense of time.

R: Feel your presence all around me On the same frequency
It's all our love can be when we Resonate... Resonate
Even though we're miles apart I reach for you and there you are.
Pull the strings that move my heart. Resonate... Resonate.

2. You come to me your in my dreams. You are my satellite.
You make me feel sweet vibrations We've shared endless nights.
Think of me, I'm never far away...
I hear your voice... you call my name.

R: Feel your presence all around me...

*: Feel the distance, send a message every night
Finding each other, we share the same desire.
Like a telegraph that leads me to your heart.
I reach out and love is where you are.

Feel your presence all around me,
It's all our love can be...

R: Feel your presence all around me On the same frequency.
It's all our love can be when we Resonate... Resonate
Even though we're miles apart I reach for you and there you are.
Pull the strings that move my heart. Resonate... Resonate.
