

Feel it closing in  
Feel it closing in  
The fear of whom I call  
Every time I call  
I feel it closing in  
I feel it closing in

Day in, day out  
Day in, day out  
Day in, day out  
Day in, day out  
Day in, day out  
Day in, day out

I feel it closing in  
As patterns seem to form  
I feel it cold and warm  
The shadows start to fall  
I feel it closing in  
I feel it closing in

Day in, day out  
Day in, day out  
Day in, day out  
Day in, day out  
Day in, day out

I'd have the world around  
To see just whatever happens  
Stood by the door alone  
And then it's fade away

I see you fade away  
Don't ever fade away  
I need you here today  
Don't ever fade away  
Don't ever fade away

Fade away, fade away  
Fade away, fade away  
Fade away, fade away  
Fade away
