

# Living in the Ice Age

Joy Division

I've seen the real atrocities  
Buried in the sand  
Stockpiled safety for a few  
While we stand holding hands

I'm living in the Ice age  
I'm living in the Ice age  
Nothing will hold  
Nothing will fit  
Into the cold  
It's not on your lips  
Living in the Ice age  
Living in the Ice age  
Living in the Ice age

Searching for another way  
Hide behind the door  
We'll live in holes and disused shafts  
Hopes for little more

I'm living in the Ice age  
I'm living in the Ice age  
Nothing will hold  
Nothing will fit  
Into the cold  
No smile on your lips  
Living in the Ice age  
Living in the Ice age  
Living in the Ice age...
