

# I'm In Love With You

Joy Williams

I've been waiting all my life for this morning  
Just to wake up next to you holding me  
And your head is resting gently on my shoulder  
Like you're whispering to me

I'm in love with you  
I'm in love with you  
So glad I found you  
I'm in love with you

When we're leaving dreams and rolling back the covers  
All at once we're getting ready for the day  
It's when you look at me in the mirror while you're shaving  
Before I go on my way, you say

I'm in love with you  
I'm in love with you  
You're the one I choose  
'Cause I'm in love

Love is joy and love is pain  
It's kissing in the rain  
It's doing dishes when it's late  
Isn't it, baby  
It's the art of compromise  
It's hellos and long goodbyes  
It's the picture of our lives  
Isn't it crazy

So I'll call you when I get to where I'm going  
And I'll tell everyone we know you said hello  
And without fail they'll ask me if I miss you  
Of course I do, you know I do

'Cause I'm in love with you  
I'm in love with you  
You're the one I choose

I'm in love  
I'm in love with you  
I'm in love with you  
I love you just the same as I did the day  
I fell in love with you
