

## Baby You Should Know

Joy Zipper

Since I've been here or what I think is me  
I can't remember how I thought it would be  
And this feeling I know so well  
You've taken it and that's ok

Baby you should know this time  
That every thought you have is mine  
Those ideas that I knew so well  
You've taken them and that's ok

That's what I see when I see in your eyes  
That's what I see when I see in your eyes  
That's what I see when I see in your eyes  
I see right in your eyes

Gained my balance you cut me off  
I was falling  
You're falling too and that's ok

Baby you should know this time  
That every thought you have is mine  
And this feeling I know so well  
You knew it too and that's ok

That's what I see when I see in your eyes  
That's what I see when I see in your eyes  
That's what I see when I see in your eyes  
I see right in your eyes
