

Check Out My New Jesus

Joy Zipper

You said I'm unclean
You know I know about those things
Shiver in the sun
I like my clothes when they're undone
People gather round
Check out the patches on my new jeans
Gather round

I
I just wanna be god

Check out my new Jesus
He talks and he walks
If you want him to
Nevermind the thorns
They're only there to confuse you
People gather round
Check out the patches on my new jeans
Gather round

I
I just wanna be god

You say I'm unclean
You know I know about those things
Shiver in the sun
I like my clothes when they're undone
People gather round
Check out the thorns on my new Jesus
Gather round
