

# Christmas Song

Joy Zipper

I need you more than the rain in  
Springtime  
Love you more than the open sea  
Feel you most when I'm deep in madness

Like the way you're always with me  
I twisted things in a certain way  
You understand my every weakness

I love you more than a thousand Christmases  
I want you more than any gift I can think of  
I need you again and again

You should know I'm always watching  
You're doing things in a different way  
I feel you now cause I'm deep in madness

I love you more than a thousand Christmases  
I want you more than any gift I can think of  
I need you again and again
