

Magic Eyes

Joy

Turn out the light - the stars are bright
Say you're mine - it will be our night
Do you feel that heavenly atmosphere?
What you feel can't be wrong
What you need it's just a dance to a midnight song
Oh baby hold me closer in your arms

Magic eyes from paradise show me that you love me,
Magic eyes can't tell me lies, never make me sad oh
Magic eyes
We analysed
You've got the magic eyes

Oh it feels, our love's just right
So beautiful for us to see the candle lights
Oh darling we will fly across the stars

Just with me you agree
Just for you I'll promise to be true oh
Darling we will fly across the stars
