Will the soundtrack kindly produce a sound?

Go on, don't be nervous, go ahead, any sound

Heheh, well, that isn't quite what I had in mind

(Hey)

Oh my God, there's nobody who can set me right
I've been sent to torch the palace down in broad daylight

I-I wanna know who you told 'til they're all laying on the floor,
frozen to the core

I-I wanna know who you told 'til it's nobody anymore, nobody anymore

Oh my God, I'm a giant with an appetite
Pushing people to the ground and running 'round the halls at night

I-I wanna know who you told 'til they're all laying on the floor,
frozen to the core

I-I wanna know who you told 'til it's nobody anymore, nobody anymore

Creeping 'round I saw a little thing I didn't like
You tried to hide.
I've been creeping 'round I saw a little thing I didn't like
You tried to hide, from me

I-I wanna know who you told, there's nobody anymore

Nobody anymore [x2]
