

Smokestacks

Joywave

Nobody's gonna hit your head
Nobody's gonna wish you're dead
Somebody's gonna make it alright
Nobody's gonna knock you down
Nobody's gonna shush your mouth
Somebody's gonna turn on the lights

When the shadows creep at night
There are no monsters here tonight

Nobody's gonna slap your hand
Cuz nobody's any better of a man
Nobody's really got it right
Nobody's ever good enough
Everybody's just covering up
Fumbling around for the lights

When the shadows creep at night
There are no monsters here tonight

Don't you give up here, remember they're just fears
They live between your ears, it's only a nightmare

When the shadows creep at night
There are no monsters here tonight
