

We all have secret places
We all seek information
We are on the way
We know eachother's faces
We're all in automation
How to communicate

What we don't retain, we get blown away
We don't retain, we got blown away

Almost had it down (2x)

We all miss hearin' kisses
We all brought our own visions
We are on the way
We question our existence
The perk of our condition
We do communicate

What we don't retain, we get blown away
We don't retain, we got blown away

Almost had it down (2x)

Unretained, we get blown away (3x)
