

When You're Bored

Joywave

So I sat and tried to watch the television
But I found it couldn't hold my attention
('cause when you're bored)
Every place, every day, there's bound to be some kind of trouble
Everywhere, every day, waiting on the next little bubble

All I can do is sit and think of you
And when I'm alone your hearts will get me through

In the back, seeking out some new affection
With the hope that she could live and breathe in my dimension
('cause when you're bored)
Every place, every day, there's bound to be some kind of trouble
Everywhere, every day, waiting on the next little bubble

All I can do is sit and think of you
And when I'm alone your hearts will get me through
All I can do is sit and think of you

And when I'm alone your views will get me through

All I can do is sit and think of you
(All I can do is sit and think of you)
And when I'm alone your hearts will get me through
All I can do is sit and think of you
(All I can do is sit and think of you)
And when I'm alone your views will get me through
