Joywave

Will the soundtrack kindly produce a sound?  
Go on, don't be nervous, go ahead, any sound  
Heheh, well, that isn't quite what I had in mind

Oh my God, there's nobody who can set me right  
I've been sent to torch the palace down in broad daylight

I wanna know who you told to the one laying on the floor  
Frozen to the core  
I wanna know who you told there's nobody anymore  
Nobody anymore

Oh my God, I'm a giant with an appetite  
Pushing people to the ground, running round the halls at night

I wanna know who you told to the one laying on the floor  
Frozen to the core  
I wanna know who you told, there's nobody anymore  
Nobody anymore

I've been creepin' round and saw a little thing I didn't like y  
ou tried to hide  
I've been creepin' round and saw a little thing I didn't like y  
ou tried to hide, from me

I wanna know who you took, there's nobody any...  
Nobody anymore  
Nobody anymore
