Will the soundtrack kindly produce a sound? Go on, don't be nervous, go ahead, any sound Heheh, well, that isn't quite what I had in mind

Oh my God, there's nobody who can set me right I've been sent to torch the palace down in broad daylight

I wanna know who you told to the one laying on the floor Frozen to the core I wanna know who you told there's nobody anymore Nobody anymore

Oh my God, I'm a giant with an appetite Pushing people to the ground, running round the halls at night

I wanna know who you told to the one laying on the floor Frozen to the core I wanna know who you told, there's nobody anymore Nobody anymore

I've been creepin' round and saw a little thing I didn't like y ou tried to hide I've been creepin' round and saw a little thing I didn't like y ou tried to hide, from me

I wanna know who you took, there's nobody any... Nobody anymore Nobody anymore
