

# Something Good

Juan Luis Guerra

Something good is coming to my life  
I don't know what it is, don't know what is like  
But I, I can feel it in my heart tonight  
Something good is coming to my life

Something good is coming to my home  
It's calling out my name and knocking on my door  
and I perfumed my bed with myrrh and cinnamon  
'cause

Something good is coming to my heart  
Something good is coming to my home

But I've been waiting a long time  
dreaming of your love  
much better than wine

I've been waiting so long  
I've been searching for your lips  
whispering a kiss  
shinning in your smile

I've been waiting so long

Something good it lighting up my soul  
I don't know how it came  
I don't know where it goes  
But I, I can tell you is much better than gold

Something good it lighting up my soul  
Something good it lighting up my soul

But I've been waiting a long time  
dreaming of your love  
much better than wine

I've been waiting so long  
I've been searching for your lips  
whispering a kiss  
shinning in your smile

(I've been waiting)  
Something good is coming to my life (something)  
I don't know what it is, don't know what is like  
But I, I can feel it in my heart tonight  
I can feel it in my heart tonight

Something good is coming to my life  
Something good is coming to my life

Something good is coming  
Something good is coming  
Something good is coming  
Something good is coming, right away

Something good is coming  
Something good is coming

Something good is coming  
Something good is coming  
Something good is coming, right away, right away

Something good is coming  
Something good is coming  
Something good is coming  
Something good is coming  
Something good is coming, right away

Something good is coming  
Something good is coming  
Something good is coming  
Something good is coming
