

## Deceiver

Judas Priest

Solar winds are blowing  
Neutron star controlling  
All is lost  
Doomed and tossed  
At what cost forever

Meteors fly around me  
Comets die, and then they  
And then they, you wanna see how they try to surround me  
I can say, here today, we shall stay forever

If you want to find us in a hurry  
Oh let me tell you don't you worry  
I can't say, here today, we shall stay forever
