Desert Plains

Full moon is rising The sky is black I heed your call I'm coming back The road is straight cast Wind's in my eyes The engine roars between my thighs

From desert plains I bring you love From desert plains I bring you love

Wild mountain thunder Echoes my quest My body aches but I'll not rest Quartz light to guide me Till sunrise leads My passion screams, my heart it bleeds

From desert plains I bring you love From desert plains I bring you love

Then in the distance I see you stand On the horizon you raise your hand In burning rubber I end my quest You fall into my arms at last

From desert plains I bring you love From desert plains I bring you love **Judas Priest**
