

Love You to Death

Judas Priest

You get me up, then we both get down
We roll all night makin' heavy sounds
I'm all tied up on your bed
I'd rather be inside your head

Don't do this, do it like that oh yeah
You've hit the spot, give it all you got
I don't care

I'll teach you a lesson
That you won't forget
Why don't you save your breath
Cause I'm gonna love ya' to death

I'm comin' to the point, I can't hold back
Then you ease off with your attack
You're the best I've had if you please
You never stop, you great big tease

Don't do this, do it like that oh yeah
You've hit the spot, give it all you got
I don't care

I'll teach you a lesson
That you won't forget
Why don't you save your breath
Cause I'm gonna love ya' to death

You can take me places, I thought I'd never go
And when you turn your love on me
Baby you're the star of the show

You can take me places, I thought I'd never go
And when you turn your love on me
Baby you're the star of the show

I'll teach you a lesson
That you won't forget
Why don't you save your breath
Cause I'm gonna love ya' to death
