Metal Gods

Judas Priest

We've taken too much for granted And all the time it had grown From techno seeds we first planted Evolved a mind of its own

Marching in the streets Dragging iron feet Laser beaming hearts Ripping men apart

From off i've seen my perfection Where we could do as we please In secrecy this infection Was spreading like a disease

Hiding underground
Knowing we'd be found
Fearing for our lives
Reaped by robot's scythes

Metal gods Metal gods

Metal gods Metal gods

Machines are taking all over With mankind in their command In time they'd like to discover How they can make their demand

Better be the slaves To their wicked ways But meeting with our death Engulfed in molten breath
